### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephen Geimer on March 16, 2005.

The application has been amended as follows:

Cancel non-elected claims 1 – 7.

2. The following is an examiner's statement of reasons for allowance:

3. The submission by the applicant's demonstrating that fire retardant polyurethanes based on halogenated compounds are known is sufficient to overcome the 35 USC 112 1<sup>st</sup> paragraph rejection set forth in the previous Office Action.

4. The prior art fails to teach or fairly suggest adding a fire retardant binder based on a halogenated derivative of a polyurethane compound to a imaged a patterned hydroentangled nonwoven fabric comprising fire retardant polyester fibers. While the prior art does disclose fire retardant, hydroentangled nonwoven polyester fabrics as disclosed in Hughes et al. (5,252,386), Hughes et al. fails to suggest adding a fire retardant binder to the fire retardant fabric. Additional prior art discloses that fabrics can be made fire retardant by coating the fabric with fire-resistant binder compositions, as taught by May (3,934,285). However, the prior art fails to teach adding the binder to fabrics which are already fire retardant and fails to teach using halogenated polyurethane compositions as the fire-resistant binder. Finally, references such as Wilson (3,498,936) teach that halogenated polyurethane compositions are useful in the preparation of foamed plastic, adhesives, binders, laminates, coatings and potting compounds. However, Wilson fails to teach using the composition as a coating or binder

applied to a textile fabric or composite. Therefore, it would not have been obvious to one of ordinary skill in the art to combine the fire retardant polyurethane binder to a known fire resistant nonwoven fabric.

5. Thus, claims 8 – 15 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
